

PASSIVE HOUSE EVENTS

Passive House is the standard for high-performance buildings around the world, providing inhabitants with superb comfort, health, and energy efficiency. These events will help you learn and apply the principles of Passive House design and construction.

3C-REN will offer monthly introductory courses on Passive House from January through March, followed by a certification course from [NAPHN](#) in April. Attend an intro event and find out if certification is right for you!

Full calendar: [3C-REN.org/events](https://www.3C-REN.org/events)

Jan 27 @ 12-1pm **Passive House Basics**

Whether wanting to understand and apply the basic principles or to grasp the big picture before taking advanced courses, this introductory class will provide the fundamentals of the Passive House standard. [More Info](#)

Feb 16 @ 8am-1pm **Introduction to Passive House**

This course guides participants through the principles and economics of the Passive House Standard, with an in-depth look at enclosure insulation & thermal bridging, principles, calculations, details, systems, and components. [More Info](#)

March 2 @ 8am-12pm **Passive House Retrofits**

Retrofitting existing buildings is a central component of tackling climate change. This course will emphasize selecting appropriate energy conservation measures and phasing these measures overtime, while the building is occupied. [More Info](#)

March 16 @ 12-1pm **The Building Blocks of Passive House Performance**

In this introductory course you will learn about Passive House and how it fits with other sustainable initiatives in our efforts to mitigate the Climate Crisis. [More Info](#)

March 30 @ 9-10:30am **HRV and ERV for Passive House Applications**

This course will provide information about how Heat Recovery Ventilation (HRV) and Energy Recovery Ventilation (ERV) play a central role in Passive House construction. [More Info](#)

Thurs./Fridays in April **Certified Passive House Designer/Consultant Training**

North American Passive House Network's (NAPHN's) Certified Passive House Designer/Consultant course is the premier training program for Passive House building professionals. [More Info](#)
