

Upfront and Ongoing Savings with an Agriculture Energy Assessment

Valued at \$3,500—Fully Covered by 3C-REN

3C-REN is offering Central Coast controlled environment farmers a FREE energy assessment for a limited time. Assessments help you understand your facility's energy use and identify ways to save money, reduce bills and access incentives for upgrades.

Participants receive no-cost technical support for:

- **Utility Bill Analysis** to identify the biggest drivers of energy costs
- **A Facility Assessment** of equipment and energy loads
- **Benchmarking** with Resource Innovation Institute's PowerScore tool to understand year-over-year change and comparison to peers

With our service you'll receive

- 1 on 1 individual consultation with an energy advisor
- Recommendations for ways to reduce utility costs
- Benchmarking support for compliance and reporting
- Connections to related incentive and financing programs

Assessments are fully covered by 3C-REN. Space is limited—sign up today.
